St Mary's Catholic Primary Pupil Premium Strategy Statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data	
Name of School	St Mary's Catholic Primary Blackbrook	
Number of pupils in school	416 including Nursery	
Proportion (%) of pupil premium eligible pupils	35% 136 pupils	
Academic year/years that our current pupil premium strategy plan covers (3 year plan)	2022-23	
Date this statement was published	September 2022	
Date on which it will be reviewed	September 2023	
Statement authorised by	Full Governing Body	
Pupil premium lead	Lesley Atherton	
Governor / Trustee lead	Angela Siney	

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£188,610.00
Recovery premium funding allocation this academic year	Recovery £8,918
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£1808
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£216,740.

Part A: Pupil premium strategy plan

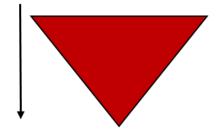

Statement of intent

'Poverty is not destiny' Anne Duncan.

We at St Mary's are proud of our warm and nurturing school as we believe this provides the optimum conditions for effective learning. We work in partnership with our vulnerable families to create caring, confident and curious children. We promote personal responsibility for learning, as we want our children to have high aspirations for themselves and work hard to reach their full potential. Research has found that disadvantaged pupils have been worst affected by the impact of the pandemic. Our pupil premium strategy is focused on how we can reduce the gap between disadvantaged pupils and their peers year on year to ensure all pupils are given the chance to achieve their true potential.

We recognise the prior attainment and needs of our children on entry to our school and have built our curriculum to meet the needs of the whole child. We develop social and communicative needs in a positive, affirming and systematic way. We are a primary school and recognise that a swift and successful acquisition of key skills will provide our pupils with the best possible outcomes. We value resilience and teamwork and provide opportunities for co-operative learning. Over time, skills and knowledge will continually be built upon.

Attainment gap on entry to EYFS

Gap closed at the end of KS2

We carefully identify the challenges our disadvantaged children experience through robust diagnostic assessments (specific to elements of education as well as non-academic challenges), not assumptions about the impact of disadvantage. This includes analysis of NFER assessments, PASS assessments and WELLCOMM screening, as well as attendance data. We ensure we prioritise the 'challenges' our disadvantaged children experience and implement actions to address these. In addition to this, we focus on evidence from EEF and other key research findings in relation to which interventions

have the most impact. This includes elements of metacognition, high quality feedback, learning mastery, reading comprehension and emotional intelligence. Our actions are measurable and the impact of these are monitored closely; changes are made if necessary.

We want to develop in our pupils, a sense of personal pride so that they know how to, and want to, make a positive contribution to their community and the wider society. We want them to have the confidence and skills to make decisions, self-evaluate and make connections. We want them to leave our school with a greater understanding and deep sense of pride in their local community and how it helped to shape the modern world. We realise the responsibility of these aims and have built a curriculum which will support this.

We will widen our pupils' perspective of the world and foster an enthusiasm to discover and try new things. We want our children to be independent thinkers who marvel at the incredible and fantastic world we live in. We will provide pupils over time with a range of memorable experiences both indoors and outdoors which will help each child explore their strengths and interests and will expand their cultural horizons.

As a Catholic School, we will remind our children regularly that they are precious and valued. We welcome, celebrate and embrace our uniqueness and diversity. We will participate in the mission of the Church by striving to tackle social inequality equip them for today and tomorrow.

To ensure our approaches are effective we will:

- Ensure disadvantaged pupils are challenged in the work that they're set
- Act early to intervene at the point need is identified
- Adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve
- That all our school planning is aligned and underpinned by a focus on equity, accessibility and challenge for all in our care

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	A key focus of the school on entry and for our disadvantaged children is to further develop language skills due to the prevalence of speech language or communication needs. This has been exacerbated by the continuing impact of the pandemic where language skills may be delayed due to a lack of social engagement.

	This is evidenced by Wellcomm and Neli assessments.
2	The number of disadvantaged pupils meeting age related literacy levels are significantly lower than their peers.
	This is evidenced by NFER assessments and Y1 Phonic screens.
	In 2018 80% of year 1 disadvantaged pupils met the national standard in comparison to July 2022 where 14% met the national standard.
	Gap analysis indicated delays in early reading acquisition and writing skills across all years.
3	Post Covid continues to show an increasing number of eligible pupils have struggled to regulate their emotions and experienced difficulties with relationships with their peers, thus affecting pupil confidence and their behaviours for learning.
	This is evidenced by our PASS/PATHS data and teacher review.
4	The gap in attendance levels for disadvantaged pupils prior to the pandemic was broadly in line with those not eligible. This gap has been widened due to the continuing impact of COVID and is therefore a key focus for the school.
	This is evidenced by attendance data analysis and punctuality records.
	Attendance of disadvantaged pupils was 88.6% in 2021/22 compared with 92.5% for non-disadvantaged pupils.
5	An increasing number of eligible pupils experienced a dip in mathematical fluency for key mathematical facts. Assessments and observations show that across school, pupils recall of number facts is limited.
	This is evidenced by Y4 tables screening and end of Key Stage results.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria	
From Early Years upwards, children and their families receive age -appropriate support to	There will be a sustained narrowing of the gap of pupils below age-appropriate standards for language.	
further develop speech and language skills and widen their vocabulary.	Wellcomm screening used to identify and support targeted children effectively	
We will measure this through regular	Ongoing strategies to support oracy development would include:	
Wellcomm and Neli Screening and analysis of termly NFER teacher administered	 Offering the 30 hour Nursery offer to all disadvantaged pupils. 	
standardised assessments.	 Speaking and listening tasks built into every lesson 	
	All adults to model high standards of speaking and listening	

- Opportunities for children to speak in full sentences using subject specific vocabulary
- Deliver the 'Talk Through Story' sessions in Reception and Key Stage 1. This aids exposure to words they would rarely hear or use in everyday speech. Understanding vocab is vital for comprehension and so also for wider learning and progress.

Children will acquire fluency and accuracy in core aspects of literacy leading to age appropriate reading and writing standards.

We will measure this by analysis of termly NFER standardised assessments.

Reading

A significant increase in the proportion of disadvantaged pupils achieving age appropriate standards in reading. As shown in NFER scores and phonic screen results.

Ongoing strategies to support reading development would include:

- Practical 'in class' support for high quality teaching, including assessment and the importance of a school wide consistent approach to the teaching early reading.
- Parent workshops to support parents to help their children to learn to read.
- Exposure to high quality shared texts to expose all disadvantaged pupils to a diverse number of authors and genres and themes.

Children will be motivated and re-engaged with their learning. Social and emotional needs will be identified and supported through interventions and pastoral support. This is intended to overcome barriers to learning. PASS data and teacher referrals to the learning mentor will identify needing extra support/interventions.

We will measure the effectiveness of these strategies via PASS data, exit reports from school counsellor, mental health practitioner and behaviour records.

PASS/PATHS and behaviour data will show impact, a positive shift in social and emotional wellbeing.

NFER data will show a closing of the gap for disadvantaged pupils including those who have shown signs of improved self - regulation.

Ongoing strategies to support self-regulation would include:

- Whole school approach to social and emotional learning, driven by weekly PATHS lessons.
- SEL (Social and Emotional Learning)
 Assemblies to reinforce key themes
 tackled in lessons. Whole school
 celebration of behaviour data to
 reinforce the high proportion of
 children making the correct choices.
- Weekly achievement assemblies value Social and Emotional learning with the introduction of the SEL

Superstar Award which provides precise praise for achievements in self-regulation and awards gold cards to pupils whose behaviour goes above and beyond the behaviour expectations of the school.

- The adoption of 'Feelings Check Ins' in lessons.
- Weekly pastoral meetings to identify and support children and families.

Through a detailed and regular analysis of attendance there will be a focus on ensuring all disadvantaged pupils have attendance records in line with non-eligible pupils.

This will be closely monitored and measured by targeted analysis of attendance and punctuality data. Attendance data will demonstrate the closing gap towards nation figures for FSM disadvantaged pupils with a focus on persistent absence so that children regularly attend school and gain greater access to the whole curriculum.

Ongoing strategies to support improvements in attendance include:

- First day response initiated by Pastoral Mentor
- The procurement of weekly EWS services to liaise with harder to reach families to ensure children attend school and on time.
- The introduction of attendance incentives including, SAM Bear, PIPPI Penguin and half-termly raffles.
- Termly individual awards of 100% bronze, silver and gold star badges for all pupils.
- The procurement of a Youth Engagement Officer to support children and families.

Children will acquire fluency and accuracy in core aspects of numeracy leading to ageappropriate standards in mathematics.

This will be measured by termly NFER agestandardised assessments NFER data and Year 4 Multiplication screen will show a closing of the gap for disadvantaged pupils.

Ongoing strategies to support improvements in mathematical fluency include:

- Daily maths fluency
- Providing disadvantaged pupils with logins to mathematical programs(TTRS, RM Easi maths and Century KS2) to consolidate their learning at home
- Interventions for targeted pupils will include Third Space Learning and Maths Mastery year group specific interventions.

Activity in this academic year This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (CPD, recruitment and retention)

Budgeted cost: £ **120,750.00**

Budgeted cost: £ 27,200.00

Activity	Evidence that supports this approach	Challenge number(s) addressed
Mindfulness in School -all children to have access to ongoing PATHS (Social and Emotional Learning) programme	EEF – 'Social and emotional skills' are essential for children's development – they support effective learning and are linked to positive outcomes in later life. With the right support, children articulate and manage their emotions, deal with conflict, solve problems, understand things from another person's perspective, and communicate in appropriate ways. Social and emotional learning approaches have a positive impact, on average 4 months' additional progress in academic outcomes over the course of an academic year.	3

	Evidence suggests that children from disadvantaged backgrounds have, on average, weaker SEL skills at all ages than their more affluent peers. These skills are likely to influence a range of outcomes for pupils: lower SEL skills are linked with poorer mental health and lower academic attainment. https://educationendowmentfoundation.org.uk/education-evidence/guidance-reports/primary-sel https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning

Total budgeted cost: £ 216,740

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

In support of the following review we can point to the following areas of evidence:

- Wellcomm language screening
- NFER Termly assessments
- PASS information

Where possible we continue to use of NFER standardised assessments to plot pupil progress and attainment over the past school year, these assessments have also been used to analyse gaps in pupils knowledge and skills in order to adjust curriculum planning and plan effective targeted interventions.

Our assessment of the impact of the Pupil Premium strategic plan is outlined below:

Intended Outcome

From Early Years upwards, children and their families receive age -appropriate support to further develop speech and language skills and widen their vocabulary.

Wellcomm screening was introduced in early years to identify levels of speech, language and vocabulary. Interventions were put in place for identified pupils and Whole class strategies put in place to improve language skills.

Evidence of impact is seen in Wellcomm and NELI data.

Children will acquire fluency and accuracy in core aspects of literacy leading to age appropriate reading and writing standards.

As noted above there has been a strong focus on evidence based approaches in order to target time and resources to meet identified needs in order to build vocabulary and literacy skills. Our aim is to year on year narrow and ultimately remove the vocabulary gap by ensuring identified pupils have access to high quality texts, which may not always be available to them at home.

Evidence of impact is seen in Wellcomm and NFER data.

Children will be motivated and re-engaged with their learning. Social and emotional needs will be identified and supported through interventions and pastoral support. This is intended to overcome barriers to learning. PASS data and teacher referrals to the learning mentor will identify needing extra support/interventions.

National research has clearly identified the negative impact of the Covid lockdowns on the motivation and learning confidence of disadvantaged pupils in particular.

In order to target resources effectively the school has made use of PASS analysis to identify specific areas and then make use of clear strategies, and where required,

interventions in order to rebuild confidence and grow self-belief and motivation.

This is in line with our whole school focus on developing metacognition and learn to learn approaches.

Evidence of the growth of confidence and motivation is available through teacher reviews and PASS information

Through a detailed and regular analysis of attendance there will be a focus on ensuring all disadvantaged pupils have attendance records in line with non-eligible pupils.

Ongoing strategies to support improvements in attendance included: incentives in school, targeted child and family pastoral support, letters home, monitoring meetings, Educational Welfare Support

Actions of evidence and progress are available on request.

Children will acquire fluency and accuracy in core aspects of numeracy leading to age-appropriate standards in mathematics.

As noted above NFER assessments have been used to identify learning gaps and ensure that curriculum and teaching are adjusted to enable all pupils to make progress -this will be sustained into the 22-23 Pupil Premium Strategy

Evidence is available through NFER assessments

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England

Programme	Provider
Maths Interventions	Third Space Learning

Service pupil premium funding (optional)

For schools that receive this funding, you may wish to provide the following information:

Measure	Details	
How did you spend your service pupil premium allocation last academic year?	£320 Provided school-led tutoring	
What was the impact of that spending on service pupil premium eligible pupils?	Intended impact Gaps in learning narrowed	

Further information (optional)

As noted above. The school continues to ensure the impact of the Covid lockdown is reduced and ultimately removed over time and that this is being achieved through a combination of:

- The use of standardised assessment information to identify learning gaps
- A comprehensive programme of staff training to continue to build a whole school culture of metacognition
- In line with EEF research a focus on High Quality Teaching, targeted interventions and a focus on wellbeing of all members of our school community.
- Continue to take part in the school's enrichment programmes.
